

Recommendation Letter

May 20, 2024

Dear RBCC Committee,

I am delighted to know that Lutao Yan has applied for the RBCC candidate position. I am writing this letter to wholeheartedly support his application.

I am excited to recommend Lutao, who has been an intern in my group for over five months, working on research related to visual analysis based on multimodal large models. As Lutao's mentor, I have witnessed significant growth in his research abilities. Throughout our collaboration, he has demonstrated exceptional enthusiasm and drive. Our communication has been highly efficient, leading to rapid progress and quick iterations in our project. Lutao possesses a strong spirit of inquiry and is both humble and proactive. During his time with us, we have organized our research findings and submitted a paper to the 2024 IEEE Visualization Conference, a flagship conference in the field of visual analysis.

In conclusion, I believe Lutao will bring valuable contributions to the program. Therefore, I strongly recommend him as a member of RBCC to pursue further opportunities in the future.

Kind regards,

Yuyu LUO
